FRIDAY, MAY 24, 1890.

Friday, the 24th, was the anniversary of the birth of our noble and beloved Queen, and it was duly celebrated as a holiday by the loyal citizens of Prince Albert. The public buildings and stores had each a Union Jack flying, which gave the place quite a gay appearance. The day dawned bright and lovely, and although it was a little cool in the early morning, during the day the mercury rose to 65° in the shade. The public festivities were not very numerous. In the morning a shooting match took place between a team of twelve men each of police and civilians, and a game of baseball in the afternoon. Several private picnics were also held in the afternoon, each of which ended up with a dance after the parties arrived back in town in the evening. One noticeable feature of the day was the absence of the sharp report of firecrackers and the hissing of rockets, which comprise almost the whole of the small boys fun on the twenty-fourth.

At the public meeting called by the mayor for Wednesday evening last to discuss the reception to be given to Lieut.-Governor Royal on his visit here next month, the principal business done was the appointing of a committee of eighteen ratepayers, in whose hands all the details of the reception was left. The affair will likely consist of a grand *entre*, reception, procession, addresses and a banquet.

In an interesting article on immigration, the *Empire* says a suggestion has been made by the Marquis of Lorne which may have a practical effect in facilitating and extending the scope of aided migration to Canada. He suggests that individuals or associations lending money on mortgage to settlers to enable them to take up and stock homesteads might, after a few instalments had been paid, sell the mortgage to Canadian loan companies, thus having the capital released to aid others in a similar way, when of course the process could be repeated.

It seems as if in this manner a comparatively small capital in the hands of an association for that purpose could be used almost permanently to carry on continuously and on a large scale the removal of the surplus agricultural population of the British Isles to the vacant prairie lands of Canada. Of course to secure such a result the details would have to be worked out carefully. For one thing, the rate of interest would have to be not that current in Great Britain, but such a figure as would enable the mortgages to be sold in Canada at their face value after payment of several instalments, so as not to touch upon the capital. The preliminary difficulty would be to secure sufficient funds in spite of the fact that no revenue could be expected for two or three years. But there ought to be enough men in the Mother Country who could thus afford to await a return, and who would be willing to do so from the interest they would feel in encouraging this movement, whether that interest arose from philanthropy, patriotism, or more selfish, though not necessarily unworthy, motives. These and other difficulties might not be found insurmountable if the matter were taken in hand by some one who could awaken public interest and confidence.

It is to be hoped that the Marquis of Lorne, who so often shows the good will he retains towards Canada, will not content himself with having made the suggestion, but will exert himself to bring it to a practical shape. In no way could a greater service be rendered to the whole British Empire than by finding a practical solution of the great problem how to remove the superabundant agricultural population from the congested portions to the lands in other parts which are lying idle for want of cultivators.

**BASEBALL.**

On the afternoon of the 24th the first game of baseball played in town since 1883 was played on the ball grounds between two nines chosen from the Prince Albert baseball club. At 2 o'clock p.m., the time appointed for the game to begin, there was a large attendance of spectators on the grounds, and not a few of the lady admirers of the game. Messrs. Jas. and John Moffatt were appointed captains on a previous occasion, and had their men chosen. The grand feature of the game was the magnificent and daring catching of T. Ballantyne, who stood so close to the batsmen that many wondered he was not struck by the bat. The club has only been organized a month, and a greater portion of the players have not handled a ball for years, which accounts for the big scores made. During the afternoon there was some very good play made, and with another month or so to practice, the boys will make a much better showing. It is to be hoped the Police will get their club in running order, and then matches can be arranged in which more interest will be taken. Mr. Fred Kerr performed the onerous duties of umpire with satisfaction to all. Following are the scores:

# TERRITORIAL NEWS

## EDMONTON.

From the *Bulletin*, May 4.

Telegraph line began working this morning, after a few days rest.

One of the stage horses dropped dead last Monday just before reaching the hill on the south side of the river.

The river is so low that it is impossible to run the ferry across. Teams are fording and foot passengers taken across in a skiff.

The slaughter of bears during the past winter has been something wonderful. Alexander's band of Indians, only a little over 200 in number including women and children, brought in skins of 114 full grown bears, besides nearly half as many skins of cubs. Those of Lake St. Ann also brought in about 100 bears. The beaver hunt has been small this spring, owing to the destruction last winter, only about a third of the usual quantity of skins being brought in. Otter and fisher are more numerous, however.

## BATTLEFORD.

From the *Herald*, May 8.

A great many fish are being captured in the Battle River, both by means of nets and fish-baskets.

Three Mounted Police teams left on Monday for Swift Current to meet and bring in Supt. Antrobus.

A large number of the Police horses are laid off duty owing to a sickness, much resembling a cold, that has broken out amongst them.

Insp. Howe left for Maple Creek, to which place he has been transferred, on Thursday. Major Cotton will command here until Supt. Perry arrives.

Just before Rev. Mr. Hogg left town to return to his home in Manitoba, a few of his friends made up a purse of \$25 and presented it to him as a testimonial of the respect in which they held him.

Fever has again broken out in the barracks, five patients having been admitted up to Sunday. The outbreak is attributed to the dryness of the spring. The fever is at present of a mild type.

The Saskatchewan is nearly run out and has hardly enough water to merit the name of a river. Sandbars everywhere meet the eye and cover a greater area of the bed of the river than does the water. At Pitt the channel is only a few rods wide. In the South Branch it is so low that it is found impossible to operate the ferry at Saskatoon and fording the river has to be resorted to. Rafts are beached all along the river, and movements in lumber interests are impossible. Battle River is also very low.

## QU'APPELLE

From the *Progress* May 10.

We had a grand three day's rain this week and vegetation is booming.

The preparations for the celebration of the Queen's Birthday are being vigorously conducted.

The trustees of the public school have got to procure another addition to the seating capacity of the school house owing to the continued increase of attendance.

Mr. Poitra's house, on the Balcarres trail, was burned down last week, during the absence of himself and wife, two small children being the only occupants of the house. The fire originated from a stove pipe, and the building and contents were entirely consumed.

## REGINA.

From the *Leader*, May 14.

Two more lunatics from Edmonton passed through for Selkirk last week in charge of the Police. Their names are Joseph Adams and F. A. Wilbur.

A very much increased acreage of seeds of all kinds has been put in this season and the excellent weather is bringing it up in the most desirable manner.

The Band is once more on a substantial footing, thanks to its many friends and the members themselves. We are glad to see Mr. Walker again assume the leadership.

Mr. W. Seed, one of Tregarva's good settlers, left on Thursday for Ireland, which he has not seen since he was the height of a walking cane. He has gone on an excellent errand—that of bringing out a party of friends from County Down to Regina district.

This morning there passed through a train load (some 14 cars) of fine mares for

the Kaye farms. Also a carload of labourers.

Mr. N. H. Russell, M.A., of Manitoba College, has been engaged as pastor of the Presbyterian church for the summer. He arrived this morning.

Mr. Thos. Barton unfortunately lost a considerable quantity of grain in the prairie fire at Hedgesford on Saturday week. His son's house and granary were also burned. The fire started from a German settler's stovepipe chimney, a spark from which ignited his stable. Mr. Barton estimates his loss at \$1,200.

## RAILWAY TO PRINCE ALBERT.

Mr. D. H. Macdowall, member of the House of Commons for the District of Saskatchewan, returned from the east on Sunday, accompanied by his wife and child. Mr. Macdowall says that the Government subsidy of \$80,000 a year to the Regina & Long Lake Co. will, beyond doubt, insure the construction of the road this year at least as far as Saskatoon. Senator McInnes' company has amalgamated with the one already named and a very strong joint corporation has been formed, which fact goes still farther in the direction of insuring a vigorous policy in pushing the road ahead. Mr. E. B. Osler, a well-known financier and director of the C. P. R., has been and is now in England arranging for the capital. The question of money would doubtless have been settled long before this, only the capitalists who are going to put their money into the scheme naturally wanted to see the act of parliament under which the subsidy was granted. This has been forwarded to England, and there is little doubt that the announcement that a successful arrangement has been made will soon be received. Mr. Macdowall says the intention is to build 160 miles this season. That will take the road to Saskatoon, and will greatly relieve the settlers of that district, as well as the people living at Prince Albert, or in that district. The next year the road will be pushed on to Prince Albert.

Speaking of Prince Albert settlement, Mr. Macdowall said it was progressing as favorably as could be expected under the circumstances. He was in daily receipt of large numbers of letters from settlers. From these he learned that quite a large crop had been put in, although not nearly as much as if there was a railway running into the settlement to carry away the grain. When the road is in operation Mr. Macdowall looks for much better times in the Saskatchewan country and a rapid filling up with settlers.—*Liberal*.

## AMERICAN ENTERPRISE

No invention of the nineteenth century has worked a greater revolution in household economy or conferred more of a benefit on humanity than the sewing machine.

The first productions were crude and uncouth in the extreme, and it was reserved for American skill and ingenuity to bring forth a machine of any practical value.

In order to appreciate the great advancement which has taken place, it is only necessary to compare one of the machines built during the infancy of the invention with one of the latest improved "Light Running New Home."

All the really good points contained in other machines have been utilized in its construction. Many new improvements and devices have also been added, the result of which is a machine as nearly perfect as it is possible to make one.

For simplicity, durability, ease of management, and capacity for work, the "Light Running New Home" has no rival, and the happy possessor of one may rest assured that he or she has the very best the world affords. See advertisement on another page of this paper.

## GENERAL NEWS.

It is reported on good authority at Ottawa that the Hon. Mr. Chapleau, in a few days, would be transferred from his present portfolio of Secretary of State to that of Minister of Railways and Canals, vice the late Hon. J. H. Pope, and that Mr. Colby will be sworn in as Secretary of State.

The approaching session of the Grand Orange Lodge of British North America to be held at Goderich, promises to be the largest meeting of the kind ever held in Canada, a full representation from every province being expected. A large and influential committee will be appointed for the purpose of making arrangements for the reception and entertainment of delegates.

# TOWN COUNCIL

A regular meeting of the Council was held on Monday evening last. His Worship Mayor Knowles presided. Present—Couns. Donaldson, Goodfellow, Mair, Sanderson Woodman and Davis. The minutes were read and approved.

## ACCOUNTS.

Several accounts were received and the following ordered to be paid:—W. R. Gunn, \$12 50; J. M. Coombs, \$27 50, THE TIMES, \$29 50; T. N. Campbell, \$3; P. Robertson, \$41 25; H. E. Ross, \$20; W. E. Bartlett, \$20; P. Hourie, \$10 75.

The Fire, Water and Light Committee recommended that 50 firemen's caps be procured.

## COMMITTEE OF THE WHOLE.

The Council went into committee of the whole to discuss the manner of reception to be given the Lieut. Governor on his official visit to Prince Albert. It was agreed that \$150 be placed at the disposal of the Citizen's Committee for that purpose. His Worship the Mayor and Couns. Woodman and Davis were appointed a committee to draft an address and get the same engrossed.

It was also decided to accept the offer of J. F. Betts, M.L.A., of one pass for an immigration agent, but the Council did not submit any name, as required, to have the same filled in.

The Council then adjourned to meet on Monday, the 27th inst.

# SUPREME COURT.

The Spring Session of the Supreme Court opened on the 14th inst., His Lordship Justice Maguire on the Bench. Although the docket was a small one the session is long and tedious, there being a great number of witnesses on some of the cases, most of whom had to be examined through an interpreter.

There was only one criminal case, that of the Queen vs Wacohn (The Water Hen). The prisoner was charged with the larceny of a horse from near Calgary in June last. On being arraigned pleaded "not guilty," and at the request of the Crown Prosecutor his trial was fixed for the 21st. On being brought up for trial on Tuesday the prisoner asked for Counsel to defend him, and Mr. Gunn was selected for that task. As the defence could not produce any evidence, the prisoner was found guilty and sentenced to one year and eleven months imprisonment in the Police guard room. J. McKay represented the Crown.

Cox vs Macdonald—Action for wages, wrongful dismissal and account of \$185. Defendant set up a counter claim, part of which was allowed. Verdict for plaintiff for \$28 50 with costs, less costs of proving counter claim which were allowed to the defendant. MacLise for plaintiff; Newlands for defendant.

Garnet vs Arcand—Replevin of a horse and other property. Action dismissed with costs. The Judge holding that the plaintiff had no locus standi and had no right to bring the action. MacLise for Plaintiff; McKay for defendant.

Cameron vs Delorme—Action for misrepresentation and deceit. Damages laid at \$150. The parties traded horses in July, 1888, and in March, 1889, the horse obtained by plaintiff from defendant was discovered to be glandered and was destroyed by order of the district veterinary. Plaintiff now claims that defendant, at the time of trade, knew the horse was unsound and represented him to the plaintiff as being perfectly sound and free from disease. Judgment for plaintiff for \$75. MacLise for plaintiff; Gunn for Defendant.

Smith vs Matheson—Adjourned until the Fall Session.

While drilling for water on the new asylum farm near Minico, a few miles from Toronto, the men struck a rich vein of natural gas at a depth of 465 feet, which increases as they go deeper.

A Chinese girl in a house of prostitution, in Victoria, B. C., was murdered last week by her lover. The murderer almost severed the head from the body by a blow from an axe. He desired to marry the woman, but she would not consent as his wages as a servant were only \$15. The deed was committed in Pigart St. in the front door of the house. Her cries attracted attention but the miscreant escaped. The girl was young and pretty.

In the International Baseball Association, the Toronto team jumped from the eighth, or last, position up to the third in four days. The clubs at present hold the following positions: Syracuse, Toledo, Toronto, Hamilton, Rochester, London, Buffalo, Detroit.

At the butts on the morning of the 24th the police and civilians shot off a match, twelve men on each team, and resulted in a victory for the police by twenty-four points. The day was bad for shooting as the wind came in heavy gusts and a good deal of judgment was required. More than half the marksmen made good shooting. The ranges were 200, 400 and 500 yards; five shots at each, with Snider Enfield rifle. The teams and scores are as follows:—
